### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: **Non-elected claims 19 and 20 have been cancelled.**

Note that the amendment failed on February 13, 2004 is denied of the entry since the lines 4 and 5 of claim 2 contain typos and since no amendment is made to the original claims 1-18.

The following is an examiner's statement of reasons for allowance: Applicant's argument that microbeads of WO 94/07808 are not water-soluble is persuasive. WO 94/07808 (Hessel et al) teaches the use of an optional water-soluble binder at the last paragraph of page 3, but does not teach or suggest the instantly recited Mw and inertial square radius.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
